

## Lake Roosevelt High School Board Report for September, 26 2009

This year we want to focus on these characteristics for our staff and students.

- ✓ It's a matter of Pride. Pride in ourselves, Pride in our families, Pride in our community, and finally Pride in LR.
- ✓ Give Respect.....Get Respect. In every situation we can always give respect and in return we will receive respect. Let's always be willing to give respect first.

Remember how we think, talk and behave about Lake Roosevelt has a tremendous impact on the climate and culture within our school building. Let's all make a commitment to be positive and optimistic about our school. Together we can make this a great school year.

Themes for this year

- ✓ Strive for positive relationships with our students
- ✓ Work toward an orderly and respectful climate in our hallways and classrooms
- ✓ Engage in meaningful activities in our classroom
- ✓ Focus on our professional learning communities to enhance learning at the classroom level.

What exactly do we want our students to learn?

How do we know if they have learned what we taught?

What do we do for the students who already know it?

What do we do for the students who don't get it?

What has been happening at Lake Roosevelt.

August 20. Back to school BBQ:

Students and parents enjoyed some great food and companionship as they paid their fees, received their schedules and lockers plus completed all the additional back to school paperwork. All who attended had an enjoyable time.

August 31: LR Field Day

Joette Barry organized a ½ day field day to build unity and school togetherness and spirit. All students were organized by their Navigation 101 groups. We had relay races, food races, cheer competitions and a whole morning of fun activities. It was a terrific way to start off our school year.

Sept 2: First meeting for the LR Building Leadership Team. This team will make school wide decisions about activities, schedules and all aspects of the day to day running of LR.

Sept 6: District wide coaches meeting. The goal was to bring all coaches together to discuss new rule, especially the new head injury rule. We also discussed the idea of being a coach for all 12 months of the year and needing to be excellent role models.

Sept 9: First LR Vocational Cross Credit meeting. We are exploring the idea of students earning math and science credits through our vocational programs and making sure to stay in compliance with state regulations.

Sept 17: Career and Tech Auto Technology Open House. Parents, students and community were invited to meet our Auto Technology Teacher and see all the high level technology training that can be learned through this program.

Sept 21 through Sept 24:

Home coming week. See the attached agenda: Hall decorations are spectacular with a three way tie for the winning hallway. A drawing will have to be held on Thursday.
